

Hrs 2025

6/16 solo
Stassi 9:45

6/10 w Anne & V
Silver

Kabeiseman on site 1:30-3:50 (V stayed extra 10 min) charge 1 debris bag
Kurzweil me & Anne til 5:10 - light weeds (less this time), debris (dogwood blossoms mainly), deadheading, cut back a few daisies and coneflower stalks to get more compact blooms, light training for clematis/monkshood, sluggo, pruning ilex in front + choisya by clematis. Decided I can swap rose & ceanothus position & it might not get too blasted by AC unit. Everything looks really good (esp after going thru 2 days of 95 heat)! Irrig seems to be getting to everything. All sweet peas are blooming! Thyme too. New driveway border is cute. Hydrangea blooming on almost every branch end. Cut deeper next year?

6/6 w Anne

Feigum 9:20-12:30/12:45 = 3:10 + 3:25 = 6:35 + a lil drive & lunch
Weeds (all beds, no patio), bit of raking (big debris + delineating patio edge), bit of shaping (ceanothus, Russian sage, parahebe, phlomis), zausch control (lil zauches are being polite but big one is running into sage)
Follow up about watering, mulch, timing of maint next year, quote for front yard redo (simple / med / deluxe)
Me on site @ Huffman 1-5ish minus 25 min trip to shop
Shop Anne on site 1:30-4, me 25 + 35 min
Shop irrig set to 3x per wk, 30 min in front 20 in back

Feigum front yard simple version:

Remove 2 yards soil
Weed light maint & regrade beds = 16 hrs
Plant 1 tree, 4-8 shrubs, 10-20 perennials
Mulch

Deluxe:

Remove walk to house & put in prettier path
Remove brick raised bed (Anna suggested)
More complex planting + moving/removing some of existing plants (current = daphne, grasses, kniphofia, shrubby birch, irises)
Gets afternoon sun, eventual shade from giant maple (light starts earlier under maple and moves across)

6/5 w M

x Pankow 8:30-2:30 M/8:30-12:40 me, inc drive and 20 min lunch for me / 30 min for M (reduce) = 10

Shop Megan on site 3:10-4:55 (me 5 min stop to pick up stuff + walk thru @ beginning). Weeded & raked paths, weeded random weedy spot, deadheaded irises, removed irises crowding daphne + perennials, started trimming cotoneaster. Huffman solo on site 1:30-4:50 inc 25 min trip to shop. Weeded lower property, raked up weeds, pruned two rhodies under living room window + one purple spindly across the lawn, lots of talking w Kathy, copper sprayed roses
Huffman rhody notes: pruned 50-70% of leaves off bigger one under living room window. Total volume of wood more like 25 to 30%. Could use a winter prune to thin it. Did less on the smaller neighbor under the window - also needs thinning (winter) & major branch heading (in spring before bloom?)

6/4 w R

x Solo mulch pick up for campbell 30 min

x Campbell on site 9:10/9:35-1:00, no lunch or breaks (added .5 to bill)

Lunch 1-1:30

Nadler on site 1:30-4:30 + me solo 40 min - my extra 15 min lunch, add .5 drive & lunch

6/3 w V

See Stoller page

Left Stoller 3:10/3:25, ended Wilja 4:55/5:15

5/29 w M

Stassi on site 9/9:25-11:45 inc lil break, add .5 drive

Weeds, debris clean up (esp styrax mess), pruning hinokis, sluggo

Choisya hasn't resprouted from pruning yet

Next: prune hinoki more (ladder), get someone to remove red maple + extra styrax, replace mailbox rhody w something else, prune camellias

x Thomas me gone 12:25-2:20 inc lunch

At Thomas til until 5:08 (see maint log), me gone 12:25-2:20 inc lunch

x Charge Sluggo, fert, 2-3 bags debris, 3 aspidistra ____ (60 pdxn), 1 kirengeshoma palmata, 3 cyrtomium fortunei var. Clivicola (little prince 4" ferns/ferns)

Erickson solo until 530. Few weeds, daffodils, sluggo, deadheading irises, planter cleanup, quick blow.

5/28 w R

x Condon left home 8:30/8:45 (30 min total drive?), on site til 12:20, me gone 9:45-11 (went home)

Lunch @ R's

Ormond on site 1:15??(couldve been earlier)-3:15

See Condon & Ormond pages for tasks

Plyley til 4:22 (weeding, shaping gooseberry dogwoods phlomis & penstemon).

Blue penstemon looks kinda shitty - floppy & branches dying off tho it has water

by it. Transplants doing ok.

x 5/27 w V & A

Taran on site 9:05(me 9:15)-12:50 (added 1:10 drive time but no lunch)

Pdxn trip 9:30-10:45 (not all for taran) plus 30 min second trip (don't count at all)

Next: 1/2 yard mulch for bed around planters, ID fall transplants, weed whack driveway weeds, edge lawn?

Lunch 12:50-1:25 (sent .5 to macpherson, ate 1.25 hr)

Kurz til 2:55

MacPherson til 4:55

x 5/22 w M

8-1 Patterson inc 40 min drive 5 min prep some of M's lunch

Butzbaugh 1-3:15 inc ~1 hr drive/lunch, plus 20 min solo

5/21 w R

Nadler

R 8:30-4:15

Me 9:40-5

x 5/20 w A & V

Buhl on site 9-2:45 A & V, me 9-11 + 2:15-2:45, V extra 5 min. Total = 14 hrs inc 1 hr lunch

Next: prune lilac, mahonia, dogwood tree, trellis climbing rose better, more ground cover control in pine pbed?, prune rhodies hard?, make transplant list

Done: planting few new perennials in driveway border + Kathy's office window bed, lots of weeds, mulching front beds (driveway borders, pine bed, rose bed, lil bit around crape Myrtle but could use more), light perennial care (deadheading brunnera + heuchera, cleaning up calla lilies & bulbs, sluggo...), debris

3 astrantia

3 astilbe amethyst

1 all gold forest grass

1 fuchsia debrons princess tutu

**kerria hasn't come back well after hard prune 🤔

Huffman on site 2:53-5:20ish me & Anne inc my short break, me solo 12:20-2, V 3:05?-3:50? Add some lunch/drive.

Total = 2:27x2 + 1:40 + 0:45 + 1:00 = 5 + 1.5 + 2 = 8.5

x 5/16 w A

LaLumiere on site 9-11:05 (A arrived 9:10)

Weeds, trimming back candy tuft, planting replacement salvias & summer interest in planter, setting up timer, design check in w M & Gail, dead wood off Japanese maple, deadwood/removal of one ribes.

Charge bucket of debris (forgot last time)

Next: bring 2 more guara (or compatible other perennial) for fothergilla bed, plants to fill in border in front of redbud (colorful flowers appreciated), check in w Lydia/ Donna on salvia / ribes / guara replacements (not sure if there were more guara but does seem like a hole there)

Vibe they're going for is making the garden the best it can be.

Foley on site 11:30-3 (billed 8 hrs)

5/15

Stassi on-site 930-1:00 M, me 10:25-10:42 + 11:17-1:17 ... add some drive (Thomas charged 1:10 drive/lunch)

Weeding/horsetail, cleaning up rhodies (deadheading + leaves on sad one), pruning viburnum, mowing edge of meadow away from path/dogwood, sluggo, debris, pruning little rhody by mailbox, planting (rhody in back to replace fringeflower (35-50), 3 aralia sun king (20 e pdxn), rosemary (Sheree got)), pruning choisya.

Next: hinokis, few snips on back of cypress, more viburnum, find home for boxwood planter, fill rest of planters?, replace lil rhody at mailbox w something sturdy - maybe miscanthus

Irrigation set to run 5/18 and every 4 days after

Next year advise Sheree to cut daffs only halfway when gets of off them

lunch break: M 1:00-1:30, me 1:17-1:55.

x Thomas

5/14 w R

Nadler on site 9-10:30

Lunch 1:10-1:40?

Kurz on site 11:15-6!

Main tasks = planting, transplanting, removals (mondo grass, lambs ear, 1 blueberry)

Maint = weeds, deadheading, daff clean up, debris, clematis, neighbors fenceline, pruning 1 choisya, couple irrig adjustments

Charge debris disposal (1 yard inc dogwood didn't charge before?)

Leftover: prune other choisya & viburnum, transplant astilbe outgrowing home, consider more edits, bring lavender/aster/daphne/penstemon enor?? when available, touch up mulch?, rhody, add irrigation to jasmine + armeria by rock + sweet peas?, check irrig to newer plants in front garden border

Later: plan fall transplants to make things perfect, remove irrig to ceanothus at end of year (and talk about total redo of back irrig)

x 5/9 w M & A

Pankow 8:30-2 minus 1.5 hrs = 15 inc 1.5 drive/lunch, am break
